

## About YNPN Boston

Since 2007, YNPN Boston has provided networking and career development opportunities for thousands of emerging social change leaders to strengthen their skills and expand their impact in the greater Boston area. Our local reach is strengthened and amplified by being a part of one of the nation's largest associations of nonprofit practitioners and supporters, with over 40 chapters in cities across the country. As a 501(c)(3) run entirely by volunteers, we would not be able to accomplish the impactful work that we do without the support of our sponsors.

## Why Sponsor Us?

Sponsoring YNPN Boston provides a way for your organization to reach thousands of young professionals and demonstrate your commitment to the Greater Boston nonprofit community. Our sponsorship benefits include valuable exposure to our ListServ of over 4,300 engaged young professionals, over 12,000 followers across key social media platforms, and to our partnering organizations in the greater Boston area. Sponsorship funding will bolster our overall impact in providing networking and career development opportunities to young nonprofit professionals. Additionally, your support will allow us to be able to expand the range and quality of our Professional Development events by providing speaking honorariums for special guest speakers, and more.
